Danny,

See below news article passed on to me from a colleague in Region 8. He described it as accurate and provides great historical context on the history of mining in the area and related water pollution issues.

I heard from Eric Delgado of Region 6 that the OEM Data Team has a map viewer staged for review. Are you aware of that viewer?

Eric is working with Randy Nattis of Region 9 and Marty McComb of Region 8 on coordinating data management for the spill.

Thanks,

Harvey
